EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael P. Leary on February 21, 2008.

The application has been amended as follows:

Claims 12 to 27 are canceled as being drawn to inventions non-elected without traverse.

In claim 1, line 5, --at least partially surrounding the recess-- has been inserted following "frame member".

The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable because the prior art does not teach or reasonably suggest a compressor enclosed by a shroud, the shroud having a recess, a frame member surrounding the recess, and a cover member at least partially covering the recess, the frame member and the cover member being mounted to the shroud through a fastener.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
